

# JCDL 2008

Pittsburgh, Pennsylvania

Bridging - culture, Bridging - technology

June 15-20, 2008

JCDL 2008 invites papers, posters, demonstrations, tutorials, as well as workshop and panel proposals that will make the conference an exciting and creative event to attend. As always, the conference welcomes contributions from the fields that intersect to enable Digital Libraries.

Topics include, but are not limited to:

- Interfaces to information for novices and experts
- Information visualization
- Retrieval and browsing
- Data mining/extraction
- Enterprise-scale Information Architectures
- Distributed information systems
- Studies of information behavior and needs; user modeling
- Insightful analyses of existing systems
- Deployment of digital collections in education
- Digital Library curriculum development
- Systems and algorithms for preservation

## PAPER SUBMISSIONS

Paper authors may choose between two formats: full and short papers. Both formats will be included in the proceedings and will be presented at the conference. Both formats will be rigorously peer reviewed.

Full papers report on mature work or efforts that have reached an important milestone. Short papers will highlight efforts that might be in an early stage. Short papers can also present theories or systems that can be concisely described in the limited space.

All contributions must be written in English. Full papers must not exceed 10 pages. Short papers are limited to, at most, 4 pages. All papers must be original contributions. The material must therefore not have been previously published or be under review for publication elsewhere.

## ALL SUBMISSIONS

All contributions (papers, posters, demonstrations, as well as proposals for tutorials, workshops and panels) are to be submitted in electronic form via the JCDL 2008 submission web page (<https://www.softconf.com/starts/jcdl08/submit.html>), following ACM format guidelines and using the ACM template. All submissions are to be made in the PDF format.

## Important dates:

All papers are due Friday, **February 1**, 2008 by 5pm PST.

Poster and demonstration submissions are due Friday, **February 8**, 2008 by 5pm PST.

Tutorial, panel, and workshop proposals are due Friday, **February 8**, 2008 by 5pm PST.
